

4. Axel's Idea

Axel wanted to make a raft by tying logs together with vine rope.

He wasn't sure if he should use five logs or six.

Dad helped Axel tie the logs together to make the raft.

They pushed the raft into the water. Would it sink or would it float?

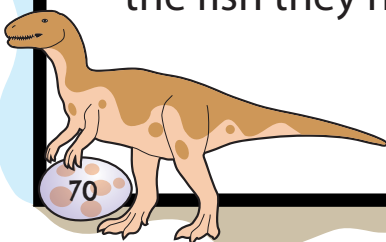

The raft floated perfectly.

Dad was amazed at the things Axel had invented.

Who was the best inventor? Was it Axel or was it Dad?

What was the best invention? Was it the firestone or was it the raft?

They pulled the raft onto the shore and hurried home with all the fish they had caught.

Name: _____

I can use the word 'or'.

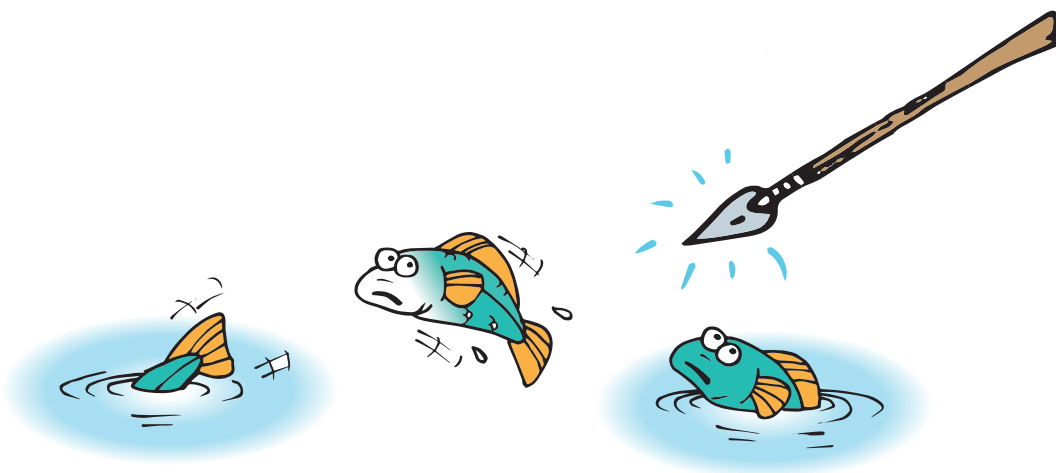

We use '**and**' or '**or**' to extend sentences.

We use the word '**and**' to give extra information.

We use the word '**or**' for giving different options.

Circle either 'and' or 'or' to complete the sentences.

- 1 Should Axel make the raft from five logs **and** / **or** six logs?
- 2 Dad chopped down the trees **and** / **or** Axel tied them together.
- 3 They didn't know if the raft would sink **and** / **or** float.
- 4 Axel paddled the raft **and** / **or** Dad caught the fish.
- 5 Was Dad the best inventor **and** / **or** was Axel the best inventor?
- 6 Axel's first good idea was to roll the heavy firestone **and** / **or** his second good idea was to make a log canoe.
