

## 1. No More Room

Mum was pregnant. She was having a baby.

There would be three children in the Firestone family.

Dad said there wasn't room for any more people in the cave.

Men came to the cave to buy Axel's rafts.

Women came to the cave to see Mum's fat tummy.

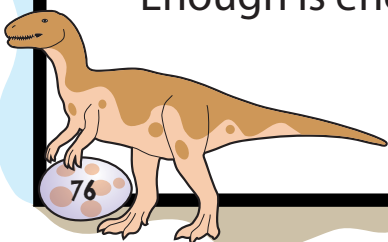

The cave was always full of people.

Dad said there was no room for Terror. He would have to go.

Even the mice were thinking of moving home.

And when it rained there were muddy feet marks all over the cave.

"Enough is enough!" said Dad through gritted teeth.
