Part A: Pupil premium strategy plan

Statement of intent

- The Pupil Premium funding will be used to provide additional educational support to improve the progress and to raise the standard of achievement for pupils who hold the funding;
- The school will use the additional funding to address any underlying inequalities between children eligible for Pupils Premium and pupils who do not have funding;
- We will ensure that the additional funding reaches the pupils who need it most and that it makes a significant impact on their education and lives.
- Where children demonstrated greater depth qualities, the school will ensure that these are nurtured, promoted and challenged.
- The Head teacher, in consultation with the governors and senior staff and considering Government guidelines, will decide how the Pupil Premium is spent for the benefit of entitled pupils;
- The school will assess what additional provision should be made for the individual pupils;
- The school will be accountable for how it has used the additional funding to support the achievement of those pupils covered by the Pupil Premium and the Head teacher will report to the governing body and parents on how effective the intervention has been in achieving its aims;
- We will ensure that parents, governors and others are made fully aware of the attainment of pupils covered by the Premium funding;
- We will seek to further develop strategies and interventions which can improve the progress and attainment of these pupils;
- We will track the impact of the strategies put into place through the funding to ensure that we can show the value that has been added to the education of the entitled children
- We will monitor evaluate and review the success of the impact of the pupil premium funding.
- Quality First teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the all pupils. This is highlighted in the recent research finding of the Education Endowment Foundation. School has received and uses daily adaptive teaching in order to support pupils.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Data suggest a great percentage of disadvantaged pupils are working towards standard when compared to non-disadvantaged pupils.
2	School evidence suggests that disadvantage pupils' results are behind those of their peers in reading, writing and math's at KS1. At KS1 fewer of our disadvantaged learners are working at the expected standard when compared to national figures. At KS2 disadvantaged pupils outperform their non-disadvantaged peers in reading and writing. They are broadly in line with math's. At KS2 more of our disadvantaged learners are working at the expected standard when compared to national figures in reading and writing. In math's fewer of our disadvantaged learners are working ast the expected standard (marginal).
3	Many of our pupils start their school journey below national expectations. Pupils oracy is low on entry.
4	Attendance for disadvantaged pupils for last year stands at 89%. Overall school attendance at 92.8%
5	Many of our children and families need ongoing support and this year. We have again seen the arrival of a large number of displaced families from overseas. We need to ensure that the school has a pastoral lead in order to support and co- ordinate a through approach of support for all families.
6	The school has many specific interventions and support for pupils but this increases the need for staffing who require quality training.
7	The school has many pupils who arrive from overseas with little/ no language skills and need extra support e.g. language support and support for families with trauma.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

Impact

Over the past 3 years the school has used the funding for a number of interventions and support in school (as previously detailed and available on statements -2021-2024. The overall impact for this year is:

EYFS- Our disadvantaged learners are in line with their non-disadvantaged counterparts and above the national disadvantage figure by 14.5%.

Phonics: -we are below national. However, we had 5 pupils who started the school the previous term and they failed the test. If they had passed then we would have been in line with national figures. All were pupil premium pupils.

KS1 results-Our disadvantaged pupils achieved lower than the non-disadvantaged pupils. 5 pupils were new to school. If they had passed then we would have been in line.

KS2 results-In reading and writing the disadvantaged pupils out performed their non disadvantaged learners. In addition, these results are generally higher than national. In math's, they were 1 pupil behind.

This data indicates an improvement on 2020-2021 figures, this indicates that the school's approach is successful in most areas.

The Local Authority has calculated progress scores for the year 23-24 and for the disadvantaged pupils at KS2 they are either in line (KS2 figures, writing-0.4 lower) or above non-disadvantaged counterparts.

Extra support for families during times of difficulty-school has continued to support families during the past year with uniform, including shoes, breakfasts, food vouchers, Aldi orange vouchers as well as support in accessing services from the Local Authority. Over the past year Early Help Assessments have been completed for a number of families.

Magic breakfast has continued to be popular and most of our families who receive PP access this.

New reading books have been bought with last years funding to improve quantity and quality across the school and this has led to an improvement in internal reading data across the school.

Music enrichment-This has impacted on the EYFS-Year 2 pupils oracy skills and has enriched their whole curriculum.
