

## 4. Axel Goes Hunting

Axel waved goodbye to Dusk and walked into the forest.

He was feeling brave. He was in the forest all by himself.

He was hunting all on his own. He hoped to catch some food for tea.

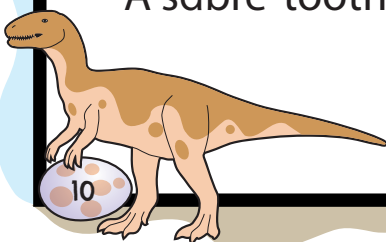

Then he heard a sound. A rustling in the leaves!

Then he heard a loud noise. **Roar!**

Something was coming out of the trees! Something was coming after him!

He turned round and saw something that made his hair stand on end.

A sabre-tooth tiger!
